MANAGED BACKUP FOR ALL BUSINESS SIZES

Assured Data Protection is a global data backup, business continuity, disaster recovery and threat detection managed service provider. As Rubrik's largest and most established MSP, we provide scalable solutions to customers, MSPs and resellers in more than 40 countries worldwide. We operationalize Rubrik's Zero Trust Security Solutions, delivering data security and protection to customers of any size.

With headquarters in the US and UK, our dedicated team provides 24/7/365 support worldwide to ensure customers can protect, detect and recover critical data and operations with minimum downtime. Assured's managed service solutions are built on Rubrik's Cloud Data Management Platform alongside extended threat detection and response, and our ProtectView management platform to ensure resiliency against data loss, natural disasters and cyber-attacks.

COST SAVINGS

Reduce your total cost of ownership (TCO) by 30-50% immediately from software convergence. Additionally, with everything in one box you can reduce you data center footprint by up to 80%.

INCREASED PRODUCTIVITY

Spend less time on managing backup and start to automate backup policies, allowing more time to focus on production tasks and products.

FUTURE PROOF BACKUPS

Protect and centrally manage workloads in public, private and hybrid cloud environments with Rubrik immutable backup, protecting you from ransomware.

SIMPLE SETUP
Rack and go with automated discovery

EASY TO MANAGE
Rubrik is policy driven allowing you to assign SLA policies

IMPROVED DATABASE
Advanced technology makes SQL and Oracle backup fast and simple

INSTANT DISCOVERY
Any and all supported servers that are replicated for our DRaas solution

rubrik

RANSOMWARE PROTECTION

Assured's shared service offering defends against ransomware and other cyber attacks by stopping potential security threats before data breaches happen or automating recovery to a known clean data point thereafter.

INCLUDES ALL HARDWARE

Assured's combined managed services solution protects and secures your data, wherever it is located, on-site, off-site or in the cloud, while continuously monitoring your production and backup data for unusual activity
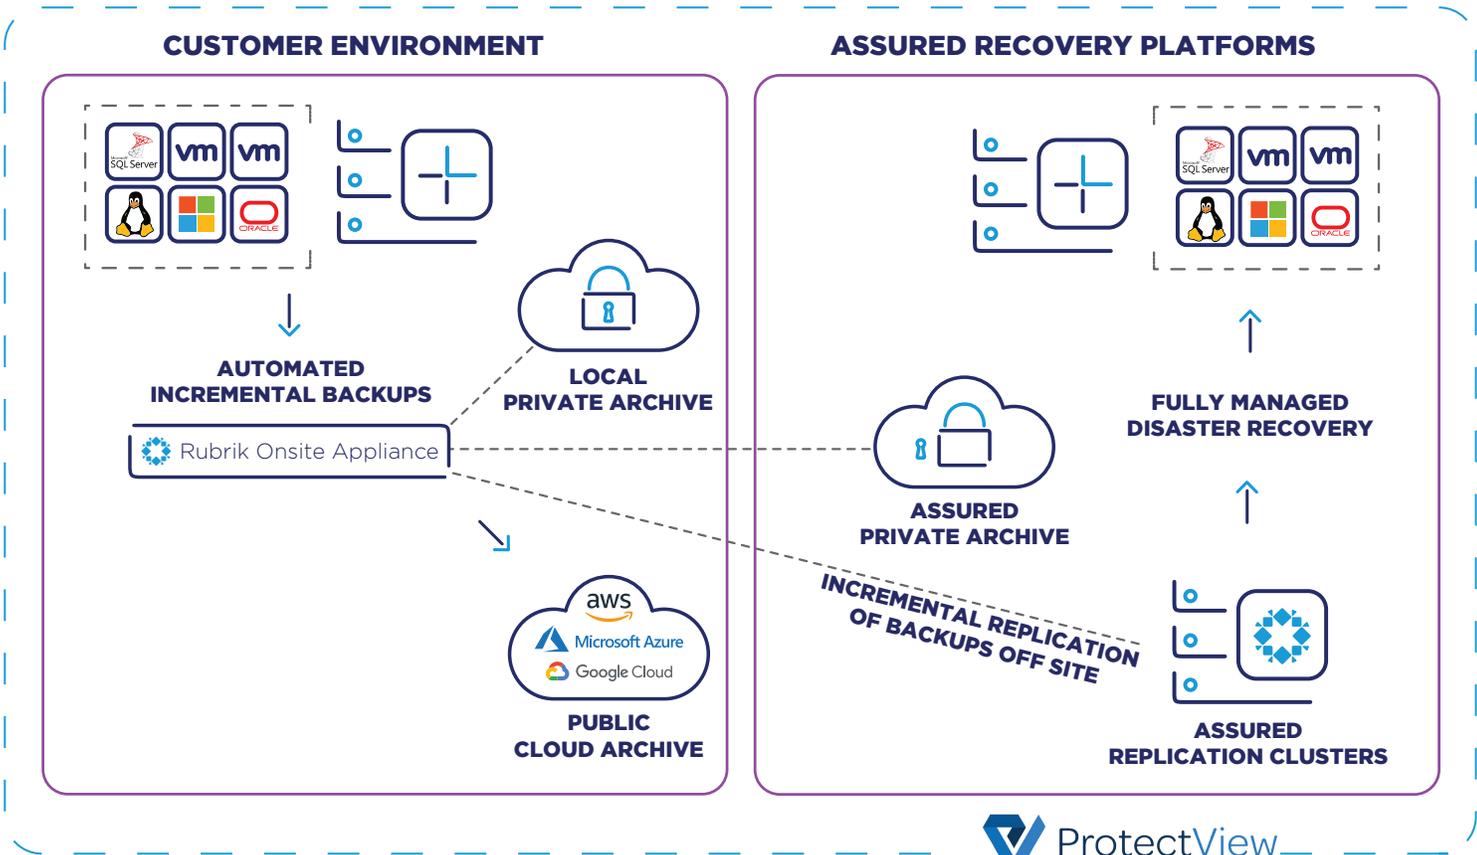

BUILT FOR CLOUD ENVIRONMENTS

Assured's solutions are tailored to each customers cloud environment, providing the best available solutions regardless of cloud utilization method and adapts as the customers journey to the cloud evolves.

INSTANT RECOVERY

Assured's integrated solution detects anomalies, large data changes or suspicious behavior in your data center environment to provide real-time reporting and alerts about potential data loss, vulnerabilities or security threats.

MULTIPLE SERVICES AND DEPLOYMENT OPTIONS

RUBRIK MANAGEMENT ONLY

- Assured provides management only for existing Rubrik customers on-premises or in the cloud.
- Assured provides Backups / Restores and alerts of any failures or anomalies
- Assured takes Tier I and Tier II support for Rubrik service issues
- Assured issues a daily report memorializing the health of your Rubrik Environment

HYBRID ENVIRONMENT

- Client owns Rubrik and Assured provides replication to second site

OPERATIONALIZED RUBRIK

- Assured owns the Rubrik appliance on premises
- Client is assessed monthly charge for utilizing the Rubrik on premises
- 36-month minimum term

RUBRIK CERTIFIED THIRD PARTY HARDWARE

- Assured owns the hardware appliance on premises
- Rubrik software built into 2U HPE appliance
- Medium to large production environments (40+ TB)
- Consumption-based model

CAPEX RUBRIK

- Rubrik on Assured owned appliance in customers environment
- Available for smaller data footprints of 2TB -20TB

RUBRIK AIR/EDGE APPLIANCE

- Client owns and depreciates Rubrik appliance on premises
- Assured charges per TB for the replica data pushed to Assured's second site Rubrik instance

---

ADDITIONAL SERVICES AVAILABLE

DISASTER RECOVERY AS A SERVICE

- Custom runbook & automated boot order scripting
- Single public IP address
- Dedicated virtual firewall instance
- Two DR tests per year
- Waiver of OnDemand resource consumption charges for of up to six days per test
- Dedicated bundle of resources (RAM & vCPU)

ARCHIVING

- Assured hosted object storage archive
- Remove non-critical or older data to less expensive storage
